Building a better
working world

Objectives

- ▶ To apply in a practical context, advanced accounting principles and techniques.
- ▶ To evaluate and apply the requirements of US GAAP.
- ▶ To analyse, interpret and report on financial statements and related information to different user groups.
- ▶ To increase competency to deal with the challenges of implementing US GAAP.

Who is it for?

- ▶ The course is designed for individuals working in financial functions in industry and commerce (finance directors, controllers, chief accountants and bookkeepers). The course presumes knowledge of basic accounting procedures and double entry bookkeeping. No prior knowledge of accounting standards is required. The course is conducted in English.

Course Structure

- ▶ This is a modularised course programme, which will comprise a mixture of lectures, questions and answer sessions, practical exercises and illustrations, home study, home tests, and finally an exam for your diploma. Delegates will receive full course notes in English and Polish, examples, progress tests and a final examination.
- ▶ There is a total of eight days face-to-face tuition divided into eight modules. Modules may be booked separately. During the time between courses the candidates are expected to study at home in their own time and solve tests. Candidates' tests will be sent to us for marking and the full solutions will be sent to the candidates to check their work. There will be a hot line available in order to communicate with the tutor any problems or any questions.
- ▶ Participants will receive an EY Academy of Business diploma on successful completion of the final exam at the end of the programme.
- ▶ If participants do not wish to participate on the full programme, they are welcome to select the modules they wish to attend but, without completing the whole programme, progress tests and the final exam, candidates will not receive a diploma.

Examination

There will be an examination of two hours at the end of the programme. On completion of the programme a diploma will be awarded on passing the examination.

PROGRAMME

There is a total of eight days' face-to-face tuition divided into eight modules. Modules may be booked separately

Module A

Introduction to US GAAP

- ▶ A short introduction to the programme.
