Building a better
working world

Why Project Management Professional (PMP®) Certification?

In today's flexible organization, the boundaries between functions are becoming less defined. You are most probably becoming more involved in working on cross-functional projects or leading global teams, even though your title is not necessarily 'project manager'.

To be effective in this capacity, you need to acquire **knowledge, skills and other competences** which extend beyond your formal role.

Every day we hear of a project that has escalated in cost or has been repeatedly delayed. Worse still (and often unreported), many completed projects leave their ultimate business users unsatisfied. Could we do better? There is no simple answer, but **this project management course should enable you to anticipate and cope** with some of the problems that you may meet.

The course will

- ▶ Equip you with the required knowledge for managing projects, **regardless of the environment** surrounding the project.
- ▶ Give you an overview of the essential **business understanding, tools and techniques**, and the **people skills** necessary for managing projects.
- ▶ Provide an overview of project management across the entire spectrum: from traditional **predictive project management** to **adaptive** and **agile** approaches.
- ▶ Back up the theory with **real-life examples** that make it easier to understand the concepts.

More and more organizations are demanding the Project Management Professional (PMP®) certification as the source and evidence of competency. You will therefore not only obtain knowledge and skills, but also an internationally recognized qualification as a certified project manager.

PMI, PMP, PMI-ACP and PMBOK are registered marks of the Project Management Institute, Inc.

The course is primarily aimed at:

The course is primarily aimed at:

- ▶ Project managers with professional project experience
- ▶ Team leaders and individuals who work in a project team
- ▶ Project office personnel and Technical individuals and line managers who are taking on more managerial responsibility in projects

PMP® Eligibility Requirements

To be eligible for the PMP® credential, you must meet certain educational and professional experience requirements. All project management experience must have been accrued within the last eight consecutive years prior to your application submission.

Educational Background	Project Management Experience	Project Management Education
Four-year degree (bachelor's degree or global equivalent)	Minimum 3 years/36 months unique non-overlapping professional project management experience during which at least 4,500 hours were spent leading and directing project tasks*	35 contact hours of formal education unless you are an active CAPM Holder
OR		
Secondary degree (high school diploma, associate's degree or global equivalent)	Minimum 5 years /60 months unique non-overlapping professional project management experience during which at least 7,500 hours were spent leading and directing project tasks*	35 contact hours of formal education unless you are an active CAPM Holder
OR		
Bachelor's or post-graduate degree from a GAC accredited program (bachelor's degree or master's or global equivalent)	Minimum two years/24 months unique non-overlapping professional project management experience*	35 contact hours of formal education unless you are an active CAPM Holder

* *Leading and directing Project tasks as identified in the Project Management Professional Examination Content Outline.*

NOTE: A Guide to the Project Management Body of Knowledge (PMBOK® Guide) defines a project as a temporary endeavor undertaken to create a unique product, service or result.

NOTE: If you are a graduate of a GAC accredited degree program you will receive a 12- month credit towards the work experience requirement. Also, you can use the GAC course work to fulfill the 35 education contact hour requirement. Learn more about the PMI Global Accreditation Center for Project Management Education Programs (GAC).

NOTE: If you are an active CAPM certification holder, you do NOT need to document the 35 contact hours. Your project management education requirement is waived.

Training methodology

In order to pass the certification examination, participants must be up to date with and fluent in a wide range of topics, demonstrate a clear understanding of PMI® terminology and its context, and be able to apply that knowledge quickly and confidently. Candidates must therefore prepare thoroughly and undertake serious study in order to pass the examination.

To ensure that candidates obtain maximum support and guidance, we provide an intensive modular course that covers all the topics tested in the PMP® certification exam. The course will take the form of a workshop and will facilitate effective self study. In addition, participants will have many opportunities to test their knowledge through sample questions to ensure that they can apply both their knowledge and examination techniques.

The tutors are PMP® certified, have long experience in project management, and are completely dedicated to the training profession.

Costs

The cost of the 5-day training is **5.000 PLN net**.

Payment should be made before commencement of each module on the basis of a pro-forma invoice. After payment has been made, each participant will receive an invoice. Please note that the course fee per person is in PLN/EUR and covers all sessions, lunch and coffee breaks, as well as the reference materials & books.

In addition to the course fee there is the cost of registration and enrolment for the exam with the PMI®.

Application

If you are interested in the PMP® Certification Preparatory Course and you wish to start, please complete the online application at least one week before the start of the course. Applications will be accepted on a first come first served basis

What does EY Academy of Business offer?

Our courses are intensive and are specially designed to help the candidate apply effective examination techniques. They usually take place over weekdays. The courses are conducted in English. The course is starting with a two-day module (part I) followed in a few weeks with a three-day module (part II) to cover all elements necessary for the exam. Our course tutors are experts in their field, and all have extensive professional experience. The comprehensive course materials have been specially prepared to cover the most recent *PMP® Exam Content Outline* and is suitable for applicants planning to pass the exam after 2nd January 2021.

When and where are the course?

9 am to 4:30 pm
